DAY-2

❖ TEACING MATERIAL

• Points to remember :-

- Members in a family may also have similar tastes, habits, preferences and temperaments. These are called family traits.
- Twins are two children born at the same time to the same mother.
- Twins can be identical or non-identical.

Let's have fun -

- Two babies born of the same pregnancy are called twins. Sometimes, three babies are also born. What is the word used for them?

DAY-3

• Points to remember

- Adopted members may not possess any resembling features of the family members.
- When people move to another place due to official orders we say that they have been transferred.

Ask yourself (yes or no)

- A family only consists of parents and children.
- In a joint family, there are more members than in a nuclear family.
- People move from their native place due to many reasons.
- Most children inherit features from their parents.
- Fraternal twins look alike.
