DAY-4

Teaching points:

Types of houses:

There are two types of houses. One is KUTCHA HOUSE and the another is PUCCA HOUSE.

1. **KUTCHA HOUSE** - Houses that are made up of mud, straw, bamboo, dry leaves etc are known as Kutcha house. It is temporary house and can be easily destroyed in wind or storm. These are mostly found in villages. Hut is an example of kutcha house.

2. **PUCCA HOUSE** - Houses made of bricks, cement, steel, wood etc are known as pucca house. It is permanent house and it cannot be destroyed easily. These are found in cities. Bungalow and Apartment are the examples of pucca house.

Activity:

Origami house making

**Make a kutcha and a pucca house using colorful paper by folding them in the shape of it and then paste it in your notebook.**

DAY-5

Teaching points:

Apart from Kutcha house and pucca house, Houses can also be classified as TEMPORARY HOUSE, PERMANENT HOUSE AND SPECIAL HOUSE

1. Temporary house- Temporary houses are the houses which can be carried from one place to another anytime anywhere For example-

★ **Hut is a temporary house because it can be destroyed easily.**

- ★ Tent is used by soldiers or the people who go for picnic. It is made up of canvas.
- ★ Houseboat is a house which is made up on boat. It floats on water.
- ★ Caravan is a house which runs on wheels. It can be move from one place to another.
- ★ Shack is a house which is made up of waste material and these houses are made by those people who don't have money to build a house.

2. Permanent house- **Permanent houses are the houses which cannot be destroyed easily and it is found in cities. Pucca house and permanent houses are the same. For example- Flats, Bungalow, Apartments.**

3. Special houses- **i) Stilt house- It is a house which is built on the base of wooden poles. It is made in those areas where floods are common or where there are rain falls heavily.**

ii) Igloo- Igloos are houses which is made up of bricks of snow so that it can be warm from inside. It is found in cold areas.
